Template for Abstract to PSAS 2006

Author1[a] and Author2[b]

[a] *Affiliation1*
[b] *Affiliation2*

This is a template for an abstract for the PSAS 2006 meeting. We kindly ask you not to use any new definitions or packets.

Since we are going to combine all contributions into a single file we kindly ask you to use the following scheme for labels and file names. All labels (e.g., to your references (cf. [1])) and file names must start with first three letters of the name of the (co)author who submits the contribution. Here we use **tmp** for this purpose.

The text must be of one page with margins fixed in this template. It may contain tables (cf. Table 1) and pictures (cf. Fig. 1).

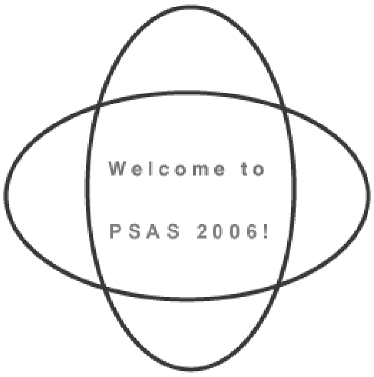

Figure 1: Figure

We are going to put the book of abstracts on the web. You should submit your abstract

Action	Deadline
Submission of abstract	24.04.2006

Table 1: Some table.
